RE : Applications Designing,
Dear Hiring Manager,

I applied with enthusiasm for the Software Engineer position at NI. As well as being a valuable addition to your team and company, I am certain this would be an exceptional opportunity for me to grow both professionally and personally.

Currently, I am an Associate Software Engineer at Deepen AI. This tremendous experience has allowed me to acquire multiple important abilities which you described as crucial in the job ad for the above - mentioned role on LinkedIn. I am a detail - oriented leader offering exceptional analytical skills and the important ability to function well in fast - paced environments. Developing back-end API with Django REST API Framework, Maintaining code base applications. Designed and Managed MySQL database for client projects where I got hands-on experience in writing complex queries to retrieve the data. Support team members in testing, troubleshooting, and debugging during the release cycle and providing continuous technical support.

Thank you for your time and consideration. I look forward to speaking with you regarding my application.

Yours Faithfully,
Dontamalla Nandakishore.
